

Rockwell Collins Overview

Rockwell Collins, Inc., is a leader in providing design, production and support of communications and aviation electronics for commercial and military customers worldwide. We also provide a wide range of services and support to our customers through our network of service centers worldwide, including equipment repair and overhaul, service parts, field service engineering, training, technical information services and aftermarket used equipment sales.

Commercial Systems

Our Commercial Systems business supplies aviation electronics systems, products, and services to customers located throughout the world. The customer base is comprised of original equipment manufacturers (OEMs) of commercial air transport, business and regional aircraft, commercial airlines and fractional and other business aircraft operators. These systems and products include flight deck electronic systems and products, including communications, navigation, surveillance, displays and automatic flight control and flight management systems, as well as in-flight entertainment, cabin electronics, information management, electro mechanical pilot controls and actuation and simulation and training.

Government Systems

Our Government Systems business provides communication and electronic systems, products and services for airborne and surface applications to the U.S. Department of Defense, other government agencies, civil agencies, defense contractors and foreign ministries of defense. These systems, products and services support airborne (fixed wing and rotary), ground and shipboard applications.
